

ART BOX Mook Vol.3 『Photography』 Release Exhibition

September 2009

After "The present and the future of art competition exhibitions" and "JEWELRY, 125 jewelry designers in contemporary Japan", the ART BOX mook series continues with its third volume and in early August, Art Box published "Photography". This time, Art Box covers the work of 121 photographers, from as many genres as fine art, advertising, editorial, fashion, music, and documentary.

The present mook makes a point of introducing all the diversifying techniques and the new forms of expression emerging with the wave of digitalization of photography.

With its quality and its volume, it meets the needs of professionals of the mass media, design, advertising, planning and editing fields, and is a perfect database of photographers and a tool of reflection for creators and editors.

Gathering the best of the world famous Japanese photographic expression, "Photography" uncovers the specific aesthetic and vision of each contributing photographer.

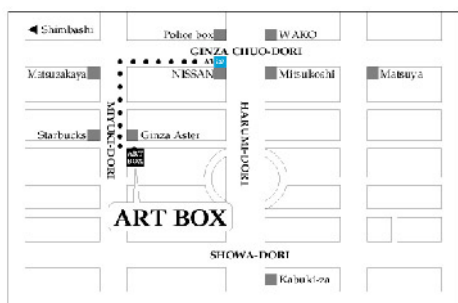

To celebrate the release of the book, Art Box organizes an exhibition with 17 of the participant photographers, in Art Box Gallery from September 27th to October 9th. The opening party will take place on Monday September 28th from 5pm to 6:30pm. You are very welcome to join.
