

ART BOX Mook vol.4 『Flower』 Publishing and Release Exhibition

Subject: At the end of September, ART BOX international will publish "Flower"

In "Flower", Art Box has gathered numerous artists who, by arranging and creating flowers with great talent, draw out the beauty of this natural material and design the space that surrounds it. "Flower" features 108 Japanese artists from various genres such as Ikebana of course, but also, dry or preserved flowers, and art flower involving clay, fabric, wax, glass, Japanese paper, etc, and tells us about their style and their concept. It is a comprehensive collection book representative of the Japanese Flower Art, and a reference in this artistic field.

The reader of this book will realize that the art of flower, which relies on the coexistence of human beings with nature, is also a process to discover the possibilities of beauty in ephemeral lives. Flower art is a symbiosis between creation and everyday life, and is the most representative art of contemporary concerns.

To celebrate the release of the book, the exhibition "Flower, release celebration exhibition" will be held in Art Box Gallery over two weeks, from October 11th to 23rd .

(Opening party: October 12th, Monday)

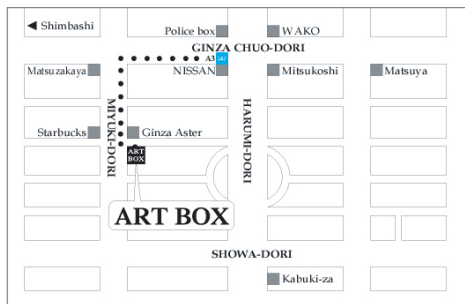

It would be a pleasure to see you for that occasion.

For further detail, please do not hesitate to contact us.
